

Week objectives and daily program

I suggest a weekly plan that has 1h30min obligatory work / 2h15 min total - not including the preparation and note taking.

Monday. (30 min)

Recap of previous week. Martine to share conclusions (15 min)

Objective of the week. Ras to share objective / one of 5 phases of the start. (15 min)

X position

T1 transition

T2 transition

Final kill

Trigger pull

Wednesday (45 min)

Free multiplayer practice (45 min)

Thursday (60 min)

Briefing (5 min)

Obligatory multiplayer session (25 min)

Race (10 min)

Debrief (20 min)

I suggest Martine share the conclusions on Monday recap and she has to do the Wednesday session with me.

For the next week we will have a onboarding of SailGP sim, and

June

Week 24 (8-14) Onboarding & sim evaluation

Week 25 (15-21/Halifax) Venue familiarization & coms

Week 26 X point

July

Week 27 T1 transition

Week 28 T2 Transition

Week 29 Final kill

Week 30 Trigger pull / Venue familiarization (Portsmouth)

The Start — Six Steps

Step 0 — Picture the plan T1, T2, and our target position on the boundary and start line.

Step 1 — Recognise condition and positioning at the X-point TWS, distance to the line, and threat from other boats.

Step 2 — Adapting the transition to T1 If time or position isn't right, how do we adapt to still make the best of T1?

Step 3 — Time to manoeuvre: lead or push? Read what the other boats are doing and decide from ratio or TTK.

Step 4 — The final kill after T2 Manage the kill of speed, and establish maximum distance to the line and space to leeward for the trigger-pull.

Step 5 — Trigger-pull The TTK adjustment and maximum acceleration.

To make this process as effective as possible, we agreed the following deliverables:

- Everyone follows the weekly SIM learning cycle:
 - o Monday : shared learnings (Martine) / define goals for the week (Ras) -> (online or video recording - to be decided by RAS on Sunday)
 - o Wednesday : SIM training (Martine + Ras)
 - o Thursday: SIM training (ALL)
 - o Friday: reflection on week and personal learnings + write report (ALL)
 - o Saturday: deadline report learning reflections in SIM folder (ALL)
 - o Sunday: decision online meeting or self study Monday (RAS)
- Store all shared documents in the SIM folder and follow the structure of the learning format
- All meeting invites are sent and coordinated by RAS and you find them in the shared calendar
- In case you are not able to attend a meeting or deliver on time, it is your personal responsibility to inform the team 24h in advance and propose an alternative timing or solution (e.g. documenting the same work). (ALL)
